Daley, Lyall Stoddert, Maurice Dubrule, Charles Bigelow, William Walker, John Kalli-her, William Gaunt, George Talor, Claxton Monro, Eugene Gadue, Allan

A special meeting of the board of vil-age trustees was held Monday and in the absence of Clerk John Piche, Trustee George M. Smith was appointed clerk of the meeting. Frank Major, trustee of the west ward, was the only absent It was voted to purchase 12 signs to be placed near the schoolhouses warn automobilists driving abou these places. A communication from the Traction company in Burlington stated they could not consider the matter of the extension of the tracks on West Allen street to the depot. It was then voted board that the committee, Eugene Richard, Octave Cormier and Frank Major, meet at the town clerk's office to look into the charter of the company Friday night for further action. A contract from the Standard Oil company for anski was read and the board is to notify them when the roads will be in readiness to receive more oil. The contract reads for about 20,000 square yards at two cents per square yard. The matter of putting a retaining wall on Weaver street where new cement walks had abutted on private property was discussed. This was left with the street committee to iuon this street where the walk was being the property is in need of a retaining wall walk. The question to be decided by the poard is whether the village should stand this expense or the property holder Trustee Cormier expressed the opinion that the property holder has to stand the expense and cited places on Platt et where the property holders to pay for their retaining wall matter of repairing East Allen street was discussed and it will be taken up with the county supervisor, Mr. Caraid. The trustees realize the road here is in a bad condition, but a big expense would be entailed since it is a main thoroughfare and traveled much by autos from all sections of the State to Fort Ethan Allen and other points. A sidewalk on upper East Allen street for pedestrians who have to walk in the road, was talked of again, but no definite action or vote was taken upon the question. It was moved that the trustees accept the invitation of the field day committee of the woolen mills to participate in the parade and that the policemen and some specials also take part. The road machine which has been a subject of much discussion in previous meetings of the board was again brought up and the street committee will give it a good test Saturday and report at a future meeting as to just how much they can do with it. They feel that they are not getting out of the machine all it is capable of doing. The sewer committee will investigate the matter of putting in a sewer extension on Malletts Bay avenue and the street committee is to look into the matter of converting the ladder truck into a truck for street work.

Piche of the death in France of Stanislas He was a son of Peter Tougas, a former resident of this village. years ago, when but 19 years of age, he enlisted in the 22nd regiment at St. Johns with several other boys from this village. was in the trenches for about two years. When he first entered the trenches he narrowly escaped fatal injuries, a piece of a shrapnel hitting his ear. He escaped injuries from then up to the time of his eath. At the time of his death he was lance corporal and was doing scout duty. The full details of his death could not order. be learned. He also has a brother. Eugene Tougas, who had enlisted for overseas duty and he also was wounded. but is still doing duty with the Canadian regiments in the trenches. The deceased was a brother of Mrs. John Piche and word of his death was sent here by the father who resides in Montreal.

The voters of the village last evening in ecial village meeting voted to empower the trustees to make a contract for five or 10 years for street lights. The article calling for the appointment of a police protective matron was voted to be laid on the table. A committee was appointed a largely attended meeting, made up of questions. A few women were present in the interest of a police matron for the it be laid on the table, and the question lost without further argument. The first article in the warning asked for the authorization of the trustees to make a contract for street lights. Following the reading. President of the Village Louis Mongeon denounced the present lighting system as a millstone about the village neck, as too large a bill of expense fo the village. He told of one of the first meetings of the board when D. W. Jardine of the Burlington Light & Power company nd a representative of the Gene Electric company were present. The Genthe present street lights and lamps were of date and that they were mostly using now a 600 candle power nitrogen censt lighting system at present These lamps Mr. Mongeon went on to tate could be furnished by the Burlington Light & Power company for \$5 per lamp and for a contract of five or 10 years there would be a reduction of five or 10 per cent. thereby saving the village about \$1,000 to \$1.100. The present lights cost the village \$70 per lamp and are 50 arc lamps, beides about two small incandescent lamps. Mr. Jardine was called upon and he imply reiterated the Mr. Mongeon and added that additional amps would cost \$19.00, \$21.00 or \$24.00. Mr. Mongeon also told of the committees' visit to St. Albans, where they found lights quite satisfactory and that the Fairfax company which furnishes lights in the latter city was willing to come in here. Trustee G. M. Smith moved that the trustees be authorized to make contract for a period of ten years to best advantage of the village Article two in the warning referred to the appointing of a police matron and the provisions for paying such an officer The third article related to the purchas ing of a new fire apparatus. The chief of the fire department, James Halloran said the present system was inadequate and that a truck would be of much better service to the village in general nmittee be appointed to consider pur-This was carried and

mons are the two other members. Mr. Stanhope asked that the committee also ook into the requirements to reduce the nsurance rates and Mr. Horton reported that that had been gone into and they had letters expressing what would be necessary and an approximate reduction of insurance rates. The meeting was then adjourned. F. E. Bigwood, as moderator, called the meeting to order and lerk John Piche read the call.

Following the special village meeting, the rustees held a special meeting, considering a few matters to be done and took up the matter of looking for bids for the new lighting system. All the members of the board were present. The Center street sidewalk, with a curb and gutter was one of the questions disposed of. The question of putting in the cement sidewalk was disposed of at a previous meet-ing, but the matter for discussion was for a cement curb and gutter. The sidewalk in question is between Main and Follett streets, on the north side, next the Corporation block. Trustee Cormier objected on account of the expense of Weaver street, stating that they would be going beyond their appropriation and that they ought to use the present gran-ite curb as a support for the cement walk. The other members of the board thought that the job ought to be done right at first and then it would be comelete for some time to come. It was finally voted to put in the cement curb and gutter, along with the sidewalk, the contract for the latter having been given out some time ago. Mr. Jardine was then heard and he, with the General Electric company official, will take up the of the number of new lights needed for the new system and where Cluster lights for Main street will also be considered.

was voted, upon a petition presented, to remove a large elm tree in front of 220 Malletts Bay avenue. An order for \$150 to each of the fire departments, the Steamer and Lafayette Hose companies, was voted as their appropriations from village, as voted in the annual village meeting. It was voted to give the agging to be taken up on Center street to Theophile Simard, who asked for it. He is to put in a sidewalk in front of his block on Canal street at his own expense. It was voted to receive bids for the nev lighting system from the Public Electric of St. Albans and the Burlington Light & Power Co. and possibly

Mrs. John B. Blais of North street lled about 3:30 o'clock yesterday afternoon after a several months' illness of heart disease. She had been confined to her bed only the past week.
